DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/6/06 has been entered.

Election/Restrictions

2. This application is in condition for allowance except for the presence of claims 3-6, 8-9, 11-15, 17-18, 20-33, 35-36, 38-138, 140-141 and 143-194 directed to a species non-elected without traverse. Accordingly, claims been cancelled.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance: The prior art made of record fails to explicitly disclose or reasonably suggest an optical waveguide structure having at least two loss components wherein the spacing is set so that the total diffraction loss at the first and second components is less than the total diffraction loss when a second component is not present. This newly amended claim limitation appears to overcome the prior art of Inoue as it appears to the Examiner that one of ordinary skill would not have reasonable motivation to modify Inoue in such a way since, having one loss component having a same diffraction loss would be simpler than having two components. Therefore claim 1 is allowed. Claims 2, 7, 10, 16, 19, 34, 37, 139 and 142 are allowed by virtue of dependency.
